MANUFACTURER'S REPRESENTATIVE AND STOCKING DISTRIBUTOR

ROTORK CONTROLS – Electric actuators for quarter turn and multi-turn valves featuring IQ non-intrusive intelligent technology and a built-in data logger for troubleshooting.
ROTORK PROCESS CONTROLS – CVA and CMA linear and quarter turn failsafe electric actuators for on/off and continuously modulating applications.
ROTORK FLUID SYSTEMS – Pneumatic rack & pinion, scotch-yoke, high pressure gas, electro-hydraulic actuators for linear and rotary applications.

CATA-DYNE - Catalytic heaters fueled by natural gas or propane for building heating, freeze prevention, instrument gas pre-heaters, FM approved Class 1 Div. 1.
NORSEMAN - Explosion Proof Electric Heaters, FM Approved Class 1 Div. 1
RUFFNECK - Industrial heavy duty steam and electric explosion proof heaters. FX5 severe duty.
CALORITECH - Immersion heaters, circulation heaters, and engineered products.

AMI - AMI manufactures a complete line of both Oxygen and H2S Analyzers. **NEW!** Tunable diode laser absorption spectroscopy (TDLAS) compact moisture analyzer.

JOGLER - Magnetic liquid level indicators, Magnetostrictive level transmitters, Point Level Switches, Direct reading liquid level/flow indicators, Laser level transmitters.

KROHNE

▶ measure the facts

KROHNE - Complete line of liquid and gas flowmeters, Coriolis, Mag. Meters, Liquid Ultrasonic custody transfer meter, Vortex and Variable Area meters, Guided Wave Radar, Non-Contact Radar, Ultrasonic, Displacer and DP Level Transmitters.

SUR-FLO - Turbine meters with patented paddle style rotors solve typical turbine meter problems of plugging and impeller breakage. **Non-Venting** Control Valves for back pressure, pressure reduction, and flow control.

SICK - Ultrasonic gas flow meters for custody transfer, allocation, and process gas measurement. **NEW!** FLOWSIC100 Highly accurate ultrasonic flare gas meter for gas plants, refineries, and compressor stations. FLOWSIC500 Ultrasonic compact gas flow meter for natural gas distribution, Fuel gas, Vapor recovery units, Flare gas applications.

ZEGAZ - Instruments' analyzers are the most advanced dewpoint measurement systems available. They are based on breakthrough CEIRS™ infrared technology (automated chilled mirror) to accurately determine the dewpoint of hydrocarbon gas streams at pressures up to 1500psi. These systems can distinguish between and measure both hydrocarbon and water dewpoint.

SignalFire - The SignalFire Remote Sensing System™ is a robust long-range wireless mesh network designed for remote monitoring and control via vendor neutral nodes. The system works with level, pressure, temperature and flow meters, as well as offering critical asset control of valves, pumps, fans, heaters and an array of other devices. Battery powered sensor and radio – Class 1 Div 1 Intrinsically Safe.

GENIE MEMBRANE FILTERS - Used to protect gas chromatographs and other analyzers from liquids. Genie probe regulators with built-in membrane filters. Direct Drive adjustable length membrane tip probes. **NEW!** ACES - Analytically Correct Engineered Sample Systems

AURA - Provides very high quality single and dual stage, pressure reducing, back pressure, and vaporizing regulators. All AURA products are American made and come with a lifetime warranty.

CVS Controls - Factory new control valves interchangeable with Fisher* ET, ED, EZ, D body, V-Balls, 4150 controllers, 630 regulators and valve trims. Pneumatic and electric chemical pumps.

MANUFACTURER'S REPRESENTATIVE AND STOCKING DISTRIBUTOR

Valve Actuation

ROTORK IQ & IQT Intelligent Electric Actuators
ROTORK Modulating Electric Actuators
Electro-Hydraulic "Failsafe" Actuators

ROTORK Electric "Failsafe" Actuators
ROTORK Pneumatic Actuators
BETTIS Pneumatic Actuators

Complete Valve Automation Services

Process Instruments

SICK Gas Ultrasonic Flow Meters
SICK Flare Gas Meters
AURA Pressure Regulators
BLANCETT Turbine Meters/Monitors
JOGLER Magnetic Level Gauges
DIP - Multiphase Flow Meters
KROHNE Electromagnetic Flow Meters

KROHNE Coriolis Flow Meters
KROHNE Custody Transfer Liquid Ultrasonic
KROHNE Radar Tank Level Transmitters
Pressure / Temperature Gauges
RTD's / Thermocouples/Transmitters
SUR-FLO Turbine Meters
Thermal Mass Flare Meters

Valves

Norriseal Valves and Controls
SUR-FLO Control Valves – Non-Venting
CVS ED, ET, EZ, V-Ball Control Valves
M&J / Walworth Slab Gate Valves
Bonney Forge/RP&C Gates, Globes, Checks

Walworth - Gates, Globes, Checks
LACT 3-Way Divert Valves
KF/PBV/WKM/Vintrol Ball Valves
Butterfly Valves
Choke Valves

Natural Gas Analyzers/ Sample Systems

A+ GENIE Probe Regulators
ZEGAZ Hydrocarbon Dewpoint Analyzer
AMI Trace Oxygen & H2S Analyzers
AMI Moisture Analyzer (Laser)

A+ ACES Analytically Correct Sample Systems
AGA Meter Tubes, Orifice Plates
AURA Single/Dual Stage Regulators
QMax Industries Heating Solutions

Explosion Proof Heaters

CATA-DYNE Catalytic Heaters
NORSEMAN Electric Heaters
POWERBLANKET Custom Heaters

CALORITECH Immersion Heaters
THERMON Line Heaters
RUFFNECK Electric & Steam Heaters

Chemical Pumps

Sidewinder Chemical Pumps

CVS Chemical Pumps

IN HOUSE VALVE ACTUATION SERVICE

***COMPLETE VALVE AUTOMATION PACKAGES**

***ON-SITE ACTUATION SERVICE**
